

CHEESE BALL TOSS

Group Size: 10 +

Supplies: One can or bag of cheese balls (More if group is large)
 Appox. 5-8 cheese balls per person
 One can of shaving cream
 One pair of goggles per team
 One hairband per team
 One large trash bag per team

Goal: Volunteer must catch as many cheese balls on his/her shaving cream covered face.

Make a hole at the bottom of each trash bag so that it would fit over the head of a person but cover his/her clothes and shoulders.

Divide group into even teams. Select one volunteer who will be the catcher. Place bag over catchers, have them put on goggles, and pull hair back with hair band. Have another team member cover catchers' faces with a thick layer of shaving cream. Be careful around eyes and mouth.

The rest of the team should stand in a single-file facing 8 feet away from their catcher. Distribute an even amount of cheese balls per team and person. One at a time team members should toss their cheese balls at their catcher.

The team whose catcher has the most cheese balls still on their face at the end wins!
